## BREAKING OF ROPE SAVED NEGRO'S LIFE

### Angry Mob Preparing to Hang Suspected Brute Second Time On Officer's Arrival.

JACKSONVILLE, Fla., Jan. 29.—A brutal attempt was made to assault Mrs. Jesse Holland, a respected white woman, by a negro brute Wednesday afternoon shortly after 5 o'clock. The attack occurred near Panama Park on the shell road.

The brute who attempted to assault Mrs. Holland, and who would probably have been successful had he not been frightened away by the appearance of a negro woman by the name of English, made good his escape and although the Jones brothers, deputy sheriffs, spent Wednesday night in the woods near where the attack occurred, no trace of him has yet been found.

Mrs. Holland was alone in the house at the time the negro made his appearance, but her three little children were playing in the front yard. The children saw the man, a tall black negro, walk into the yard and go around the house to the back door. They were terribly frightened and ran into the house to inform their mother of what had happened.

**Forced Open Door.**

Mrs. Holland immediately closed the rear door and locked it. The negro demanded that he be admitted but was refused. He then forced the door open and immediately attacked Mrs. Holland, grabbing her by the throat and informing her that if she cried for help that he would kill her.

The frightened woman, with the children, screamed at the top of their voices and the negro, evidently fearing that he would be caught, released his hold and left the house. Mrs. Holland then rushed out of the front door and headed for the shell road, about 100 feet from her house, and before she reached the road she was again seized by the negro and thrown to the ground. Her clothing was torn almost from her by the big brute and her body was considerably bruised.

She continued screaming and her cries were heard by an old negro woman by the name of English, who has long resided near the Holland home and the negress came rushing to the assistance of the white woman. She brought with her several other negroes and the brute, who saw them approaching, ran off into the woods.

Several people were shortly on the scene, among them the telegraph operator from Panama station. A posse was quickly formed, being composed of both white and colored men, and a thorough search of the surrounding woods was made.

The negro was tracked into the quarters near Cummer's mill, but after that all traces of him was lost.

Sheriff Bowden has offered a personal reward of $25 for any information that will lead to the arrest of the guilty party. The negroes in the neighborhood where the brutal attack occurred are as deeply stirred up over the matter as the white people, and they have promised to lend every effort towards capturing the man. It will be remembered that a similar case occurred a short while ago near the Phoenix Park car line, and althogh an arrest in connection with that case has been made many are of the opinion that the fiend who attempted to assault Mrs. Holland Wednesday afternoon, is the same who attempted the assault upon another respected white woman a short while ago.

**Almost Lynching.**

As a result of the attack made on Mrs. Holland a lynching was narrowly averted Thursday night. Only the prompt arrival of Deputy Sheriff Ellis prevented the determined men from carrying out their plans.

A large posse, composed of men from the Cummer mill settlement and Panama Park, were scouring the woods in hopes of finding the man. They found a negro who gave his name as Ben Austin.

The actions of the negro were rather suspicious and he was carried before Mrs. Holland for identification. Mrs. Holland stated that he was the wrong negro, as he was not wearing the same kind of overalls worn by the man who had attacked her.

The negro told the posse that he could prove by his boss that he was working when the attempt at assault was made. He was then carried back to the Cummer settlement and his boss located.

The man for whom he worked stated that the negro had knocked off from his work shortly before 5 o'clock. This looked suspicious to the posse and Austin was carried back to Mrs. Holland for the purpose of having her take another look at him.

At this time she identified the man, partially, and he was then hustled off into the woods by the excited mob, evidently for the purpose of a lynching.

**Used Telegraph Wire.**

The men found a long piece of telegraph wire and this they used in place of a rope. The noose was adjusted and placed around Austin's neck and he was pulled into the air.

One of the posse, a man who had taken part in the search the previous night, and who felt confident that Austin was the wrong man, rushed off into the darkness and sought Deputy Sheriff Ellis. He found the officer and told him what was happening and Ellis drove rapidly to the scene of the lynching

When the officer arrived he found Austin lying on the ground in an unconscious condition. The wire had broken, which caused the negro to fall to the ground.

When Ellis arrived the men were repairing the wire and were about to string the negro up again. The officer immediately became the master of the situation and ordered the men to leave the scene. He then placed the negro in his buggy and drove rapidly to the county jail.

Sheriff Bowden, who was already working on the case, went to the county jail and questioned Austin very closely and immediately left for Panama Park to make a further investigation.

The negro told him places that he had been Wednesday night and the sheriff went to those places for the purpose of ascertaining if Austin was telling the truth.

## SEES HOPE VANISH WITH BITTER OATH

ATLANTA, Ga., Jan. 29.—Five years ago a man named William Cox was brought to the Federal penitentiary here to begin a term of imprisonment for forgery of money orders. He was regarded as an obdurate criminal. The guards said he was a bad sort. They had seen his kind before. He was the sort of man, they said, who believed he no longer had a chance, and no longer cared what came.

But he had a few books of the right kind thrown in his way: One Sunday the chaplain had a talk with him. From then on the man was changed. He had before been sullen and morose and the guards had kept a careful eye on him. He became a model prisoner. There was hope in his expression, in his carriage. His expression became bright, there was a smile on his lips.

The books and the chaplain had showed him that he still had a chance. He had put the past behind him. He turned his eyes wholly to the future. He was a skillful workman and he worked hard. He gained every day in efficiency. Everyone encouraged him. The prospect was that when his sentence was concluded he could earn an excellent salary and live a very useful life.

His whole thought was centered on the day he would be free. He dreamed of that. It was his one great goal. Life would begin again then. He talked of it to the guards when he was permitted to talk, he whispered of it to his fellow-prisoners. It was the one day. Monday it came. He started from the prison a free man, and on the outside he was re-arrested.

**"To H— With Everything."**

He was taken to the United States court and an order was given remanding him to Columbus, Tenn., where he will be tried on another charge of forgery of money orders. He had thought that all of these charges had been grouped together, and that he had been sentenced for all. But he was mistaken. He will probably be re-sentenced in Columbus, and as soon as he has completed that term of imprisonment will be tried again at Savannah, Ga.

Wednesday morning he was taken back to Columbus by a United States marshal. As he stood with his hands handcuffed, waiting to be taken to the train, his face quivered, tears came into his eyes.

"To hell with everything and everybody," he said.

## RAILROADS WILL RESTORE SUM OF $165,000

### Interstate Commerce Commission Approves Agreement of Railroads and Shippers.

WASHINGTON, Jan. 29.—By far the largest specific allowance of reparation ever ordered by the Interstate Commerce Commission was made yesterday, when that body approved a settlement agreement of $165,000 in satisfaction of the claims on account of unreasonable rates on lumber shipped from Southern mills, involving about 125 cases and eleven different railroads of the South. These are said to be one-third of the claims of the same kind pending before the commission. They involved the two-cent difference per 100 pounds between the advanced rates, made effective in the summer of 1903, and those in effect for a number of years prior thereto on shipments that moved between the time of the advance and the summer of 1907, when after the final decision of the United States supreme court sustaining the decisions of the commission after a course of appeals the low rates were restored.

The defendant roads are: Southern Railway, Atlantic Coast Line, Nashville, Chattanooga and St. Louis, Seaboard Air Line, Central of Georgia, Georgia Southern and Florida, Macon and Birmingham, New Orleans and Texas Pacific, Mobile and Ohio, Illinois Central and Louisville and Nashville.

The settlement agreement was reached between the petitioners and the carriers on January 12 last, and the commission's approval is with the proviso that the commission reserves the right to require, if necessary, a statement showing in detail the distribution of this fund among the several claimants.

The claims were heretofore decided by the commission in its reports by Commissioner Clements in what are known as the Yellow Pine Association and Tift cases.

### MORE PROHI. BILLS.

NASHVILLE, Tenn., Jan. 29.—In the Upper House of the Legislature yesterday a bill was introduced to require sheriffs to secure from the federal revenue officials a list of all persons to whom federal liquor licenses have been issued.

Another bill was introduced providing for a commission to assess the value of all property, the use of which, it is alleged, will be damaged by the State-wide prohibition bills.

In the House a bill was introduced making it unlawful to advertise in any form, intoxicants in this State.

### BOARD OF PARDONS.

TALLAHASSEE, Jan. 29.—Mr. G. T. Whitfield, secretary of the board, announces that there will be no meeting of the State Board of Pardons on the first Thursday in February. The next meeting of that board will be held on Thursday, February 11, 1909.

## Cuba's Fate Is Now In Her Own Hands

HAVANA, Jan. 29.—Major-General Jose Miguel Gomez was inaugurated President of the restored Cuban republic yesterday at noon, and within an hour after he had taken the solemn oath of office administered by the Chief Justice of the Supreme Court, the American officials who had been in control of affairs since the autumn of 1906, had departed from the island.

The American Provisional Governor, Charles E. Magoon, who escorted Gen. Gomez to the palace and there turned over to him the reins of government, sailed on the new Maine. The Maine was followed by the battleship Mississippi and the army transport McClellan. An immense crowd gathered along the sea walls to witness this spectacle, and a perfect swarm of yachts, tugs and small boats accompanied the ships to the open sea, where full speed ahead was signalled and the gray fighting vessels and white transport soon left the little flotilla behind with a chorus of whistles screeching farewell salutes.

A Cuban gunboat also accompanied the ships some little distance to sea with a band on board playing from time to time the Cuban national anthem. The scene so filled with significance was a most impressive one, but the crowds ashore looked on in characteristic silence. Earlier in the day, when Governor Magoon and President-elect Gomez were seated side by side in the carriage en route to the palace, in the wake of a galloping escort of rural guards or native cavalry, there was the same silence on the part of the holiday throngs who lined the sidewalks. Hats were lifted as the carriage swept by and the salutes were returned in the same manner by the Governor and Gen. Gomez.

Last night fireworks were burning throughout the city in the same profusion that characterizes the Fourth of July in the United States, and the cafes were gay with music and singing.

About 3,000 troops are still on the island, under command of Major-General Thomas L. Barry. These will be returned to the United States as fast as the transport service will permit, the last of the troops leaving on April 1.

## Saw Juror Sober Once In Twenty-five Years

NASHVILLE, Tenn., Jan. 29.—With the jury numbering two less than it did five days ago, the ninth day of the trial of Col. Duncan B. Cooper, Robin Cooper and John D. Sharpe, accused of the murder of former Senator E. W. Carmack, ended yesterday with every prospect of a further depletion. The court excused Jurors Leigh and Jackson charged with drunkenness and bias today, and intimated that Juror Whitworth would be excused tomorrow. The latter has been ill for several months and two physicians have signed certificates that if he remains in the box his life may be forfeited.

The State opposed Whitworth's release and the court ordered the physicians summoned to testify. They will appear today, as will also the new venire of 500 men, and an effort will be made to get from them the balance of the jury.

Following Juror Leigh's release from the box he was arrested on a charge of perjury and released on $1,500 bond to answer before the grand jury.

Juror Leigh's case was first disposed of without argument by the attorneys. The court said:

"I have given the case careful consideration, weighing the testimony for and against the juror. The charge of drunkenness is controverted, but it is evident that the juror is biased and as such the retaining of him would make the jury a prejudiced one. Therefore I excuse Mr. Leigh from service."

The defense served notice that it would ask the court to dismiss the eight men left on the jury on the ground that the dismissal of Leigh had prejudiced the others against the defendants. The formal motion to this effect will be filed later. The first witness against Juror Jackson swore that the juror, who is a blacksmith, would put a shoe or two on a horse, collect for the work and go three miles to a station for a drink before he would finish the job.

Squire Lewis, who has lived near Jackson for twenty-five years, saw him sober once in the twenty-five years.

At this point the defense admitted that Jackson was unfit and consented to his dismissal.

Before further examination of talesmen, the case of Juror Whitworth will be disposed of by the court.

Isn't there something which only a want ad can do for you today?

# MORRISTON HAS SEVERE WIND STORM

TERRIFIC WIND ALL ALONG THAT SECTION WEDNESDAY.

Many Telephone and Telegraph Poles Down and Wires Put Out of Business.

The telephone and telegraph companies south of this city suffered heavily Friday as a result of the severe wind storm which began early and lasted the whole of the day.

In the vicinity of Gainesville the wind was blowing at the rate of about forty miles an hour, but at no time did it do any damage to property or the wires.

Near Morriston, and in fact from Archer south to Dunnellon, as far as heard from, the wind was more severe, and many telegraph and telephone poles have been put out of business, and it is said around Morriston many trees were felled to the ground, being blown up by the roots.

It was reported from Dunnellon that the wind was extremely severe there, several houses being blown down, but through the courtesy of Mr. Voyle we can deny this report, as that company at once put a large force at work on their lines and had them working as far south as Dunnellon last night.

The damage to the telegraph and telephone people seems to run up considerable, but outside of this nothing serious is thought to have occurred.

Rain fell at intervals during the day, which was highly appreciated by the farming class of people, as it is expected that much good will result from the showers.

Many are of the opinion that we will have cold weather following the rain, but the weather man's indications Friday were: "Partly cloudy and colder Saturday," which does not signify anything unusual in the line of a cold snap.

# MICROBES IN THE SCALP

The Latest Explanation is That Microbes Cause Baldness.

Professor Unna of Hamburg, Germany, and Dr. Sabourand of Paris, France, share the honor of having discovered the hair microbe.

Baldness is not caused through a few weeks' work of these hair microbes, but is the result of conditions brought about by their presence. Baldness may not occur until years after the microbes began work, but it is certain to come sooner or later.

The microbes cut off the blood supply. They feed on the fatty matter about the root of the hair, through which the blood is absorbed. Finally the fatty matter is wholly consumed, the food supply of the hair is gone and it starves and finally dies.

Resorcin is one of the most effective germ destroyers; Beta Napthol is both germicidal and antiseptic; Pilocarpin, though not a dye, restores natural color to hair when loss of color was caused by disease. These curatives properly mixed with alcohol as a stimulant, perfect a remedy unequaled for curing scalp and hair troubles.

We want everyone who has any scalp or hair trouble to try Rexall "93" Hair Tonic, which contains all these ingredients. If it does not grow hair on your bald head, stop your hair from falling out; cure you of dandruff; make your hair thick, silky, luxuriant; if it does not give you complete satisfaction in every particular, return the empty bottle to us, and we shall return every penny you paid us for it, without question or formality.

Of course, you understand that when we say that Rexall "93" Hair Tonic will grow hair on bald heads, we do not refer to cases where the roots are entirely dead, the pores of the scalp closed, and the head has the shiny appearance of a billiard ball. In cases like this, there is no hope. In all other cases of baldness Rexall "93" Hair Tonic will positively grow hair, or cost the user nothing. Two sizes, 50c and $1.00. J. W. # ATTRACTIVE EXHIBIT FROM UNIVERISTY

SOLID CAR LOAD TO LEAVE FOR THE TAMPA FAIR.

Wonderful Exhibit From the Blacksmith Department Under Supervision of M. W. Smith.

Another car has been added to the exhibit gotten up by Major J. W. Tench which will do much toward procuring prizes at the coming State Fair. This is the car that has been gotten up at the University and reflects great credit upon those who participated in its preparation.

While, of course, the agricultural interests are taken care of to a large extent, the products of the boys constitute a most important part of the car. It is an exhibit from the blacksmith department and shows the product from the steel bar to its finish, and something over one hundred articles have been manufactured to show just what can be done.

The exhibit from the shop consists of chisels, square, round, diamond-pointed and scoop, all being made from diamond point bar steel; steel boiler tube welding, hammers galore, bits, crow bars, nail bars, drawing knives, moulders' tools, screw drivers, chains, sockets, anchors, and in fact a general make-up from a blacksmith shop where they know how to do these things, and the fact that they were all hand-forged from cold-rolled steel is further evidence of the efficiency of the work.

Very few of the articles have been finished with the emery wheel, but show the products in their rough state to demonstrate how clever the students are at present in doing their work.

Under the able instruction of Mr. Smith the tools are of the best that could be made, and while he has no senior students he has allowed some of the juniors to finish a few of the articles to show what a neat and handsome appearance the finished product makes.

One of the neatest trinkets here shown is an ice pick, which will more than likely be taken up with the ladies, as in its finished state it is not only "cute" and very serviceable, but represents some highly nickled plated article.

Considering that the time for making this exhibit has been very limited, the University will make a most excellent showing.

### For City Marshal.

I respectfully announce myself a candidate for the office of City Marshal, to be voted for at the election on April 13, 1909. If elected I will faithfully discharge the duties of the office without fear or favor. I respectfully solicit the votes of all, irrespective of party affiliation.

## ARDI GRAS FESSIV-ITIES AT PENSACOLA

DEEP WATER CITY MAKING UNUSUAL PREPARATIONS.

History of Mystic Event Which Has Been Celebrated Since Early Days of the Christian Era.

PENSACOLA, Fla., Jan. 29.—Additional interest is everywhere being manifested in Pensacola's Mardi Gras carnival, Feb. 22 and 23, this year because of the fact that some startling innovations are promised over the customary Mardi Gras celebration.

Mardi Gras, literally translated into everyday, unadorned Anglo-Saxon, means the festival of "Fat Tuesday"—a day of feasting, fun and frolic immediately preceding the Lenten season of man's supposed retirement of forty days from the frivolities of this old sin-cursed world.

The exact date of the inauguration of the feast is not definitely recorded, but it is known to have been of pagan origin. Early in the Christian era, however, it was adopted as the feast of Shrove Tuesday, the day preceding Ash Wednesday, the first day of Lent.

Its earliest celebration as a Christian festival occurred in the Eternal City of Rome, where it is still observed with great magnificence and glittering splendor.

In 1900, an organized celebration of Mardi Gras was inaugurated at Pensacola, Fla., and ever since then the Deep Water City's carnivals have come to be regarded as one of the most attractive features of a midwinter visit to the Gulf coast. Indeed Mardi Gras is Pensacola's annual gala occasion, and justly so, since all Pensacola enters into the true spirit of the occasion and makes it a genuine holiday devoted to fun, frolic and festivities, and a hearty, hospitable entertainment of its guests.

The celebration occurs this year on Monday and Tuesday, February 22 and 23, and will be on a scale of magnificence which was not dreamed possible of attainment when Pensacola's great carnival was undertaken nine years ago.

The parade of allegorical floats which will occur on Tuesday night, and will be on a scale of magnificent cars executed to represent a story from a work as familiar to everyone as the nursery rhymes of childhood.

King Priscus, whose identity will be shrouded in mystery until he unmasks at the grand coronation ball following Tuesday night's parade, will arrive from the realms of Mysticism and board the royal yacht "Rospen" on Monday at noon.

From the royal dock he will ride in state, attended by numerous gaily caparisoned mounted knights, uniformed battalions of soldiers and marines and hosts of his loyal civilian subjects to the city hall, where the keys to the city will be delivered to him by the mayor immediately following which his two days' reign of revelry will commence.

Already the hotels and boarding houses of the Deep Water City are reported as receiving daily requests for reservations for carnival week.

### MARRIED IN HASTE.

**Remarkable Wedding on a Fast Moving Railway Train.**

HIGH SPRINGS, Jan. 29.—At an early hour last Saturday morning D. Davidson, accompanied by Rev. G. Yeates, boarded the Jacksonville train at Burnett's Lake. When reaching Dukes, a few miles distant, Miss Pinkerson boarded the train. When the train got under full headway Mr. Davidson and Miss Pinkerson stood up and Rev. Yeates soon made them man and wife. On reaching the next station, Lake Butler, Rev. Yeates returned, the happy couple proceeding on to Jacksonville and other points on their honeymoon. Because of its romance it was a surprise to their many friends. The groom, Mr. D. M. Davidson, is a popular and progressive merchant, and the bride is a lovely and valued daughter of one of Bradford's most prosperous farmers. After a short bridal trip they will be at home to their many friends at the Bradley Hotel in this place.

## WORTHINGTON TO GET ANOTHER DAILY TRAIN

WILL BE RUN FROM AS FAR SOUTH AS OCALA.

Interested Parties Have Been Working for This Service for Many Months as Experiment.

For many months interested parties have been quietly at work to get another train put on between Gainesville and Worthington Springs, and it now seems as if their efforts will be rewarded.

It is proposed to run this new train from Ocala to Worthington, making the round trip every day, that tourists and the citizens generally could spend the day there and return to their homes every evening, and at the same time have a pleasant day at the Springs.

This new arrangement would probably prove pleasing to the Northern people here, as they could spend the day there and return in the evening. Besides, in the summer it would catch much of the trade from this point that has heretofore gone out of the State for recreation purposes.

In speaking of the proposed new service, a railroad man Friday informed The Sun reporter that the train would probably be put on within a very short time, and would first be tried as an experiment before it was made permanent.

**Noted Preacher to Come.**

Rev. Dr. Samuel M. Smith, pastor of the First Presbyterian church, Columbia, S. C., is expected to arrive at noon today, and will preach his first sermon at the Bible Conference this evening at 7:30 o'clock. During his stay in the city Dr. Smith will be the guest of Dr. and Mrs. Thos. P. Hay. Dr. Smith is a preacher and orator of very unusual ability. At the time of his call to Columbia from North Carolina, the Governor of the State said that Columbia was getting the finest preacher of any denomination in the State; and he is acknowledged to be in the front rank of the ministry of the Southern Presbyterian church. Dr. Smith is to speak in the First Presbyterian church Sunday morning and at the Tabernacle again on Sunday afternoon and Monday night. On Monday night there will be a great song service conducted by Messrs. Hall and Mack, beginning at 7 o'clock, to be followed by Dr. Smith's last sermon.

The city of Palatka will spend not less than $6,000 this year on hard surfaced streets within the city limits, using vitrified brick and Interlachen gravel.

F. A. O'Leary, a wealthy resident of Pittsburg, Pa., who spent the winter at West Palm Beach, was found dead in bed at his hotel last Wednesday. Death was due to heart disease.

The unsavory Palmer murder trial before Judge Wall in criminal court in Tampa came to an end Friday with the finding of a verdict of "not guilty" against the prisoner, Mrs. A. Pauline Palmer, who shot and killed her husband, Luke Palmer, last summer at their home in Tampa.

James Platt, The Saturday Evening Post agent at Orlando, has received from the Curtiss Publishing Company a check for $150 for selling more Posts, according to the size of the town, than any boy in the United States. He has deposited the amount in a savings bank as a nucleus to a fortune which he may some day make by continued close application to his business.

While others are talking of planting cotton in this locality and wondering if it can be successfully grown, Contractor Frank Bass has secured seed and is getting his ground in shape for planting. Frank says the only way to find out if cotton can be profitably grown here is to put seed in the ground, which he will shortly do, and states that any who desire information on the subject will be furnished same by him next August or September.—Kissimmee Gazette.

A bold attempt was made between 3 and 4 o'clock Wednesday morning to rob the jewelry store of A. Fried, in the heart of the business district of Pensacola, and what caused the burglars to leave the place will probably remain a mystery, unless it was that they were searching for something special in the stock of goods and being unable to secure it left, carrying with them only a small amount of goods, as this is the only thing missed by the proprietor up to the present time. Instead of using a saw or breaking the fastenings of the rear door the burglars resorted to fire. This they set with the aid of oil at the bottom of the door, and having prepared for all emergencies had with him a bucket of water. When the flames had burned the heavy door away, they were extinguished with the water and the burglars entered. A revolver and some other articles were secured, but from the manner in which the goods were thrown about it is shown that they were in search of some article. Blood hounds were called and an effort was made to trail the parties, but without success. Recently the store was robbed of jewelry valued at $300 and no clue has ever been obtained by the officers.

## THE POWER OF STEAM.

**Many May See But It Takes Genius to Realize.**

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

## PE-RU-NA TONIC FOR COUGHS, COLDS, CATARRH.

JOSEPH HALL CHASE.

Peruna Drug Co., Columbus, Ohio.

Gentlemen: I have used Peruna and find that it cannot be equaled as a tonic, as well as a cure for coughs, colds and catarrh.

You are authorized to use my photo with testimonial in any publication.

Joseph H. Chase,
804 Tenth St., Washington, D. C.

**Cold and La Grippe.**

Mr. C. Happy, Hardin, Ray Co., Mo., writes: "I can safely recommend Peruna as a remedy that will cure all catarrhal troubles.

"It was of great benefit to me, as it cured me of catarrh of the throat, and I took a very bad cold and had la grippe last February. It settled in my throat and lungs. I took three bottles of Peruna and it cured me.

"I highly recommend it to all who are sick, and I am glad to add my endorsement to that of others."

**Pe-ru-na for Colds.**

Mr. L. Clifford Figg, Jr., 2929 East Marshall St., Richmond, Va., writes that when he gets a cold he takes Peruna, and it soon drives it out of his system. For several years he was not entirely well, but Peruna completely cured him.

People who object to liquid medicines can now secure Peruna tablets.

Ask your Druggist for a Free Peruna Almanac for 1909.

**Sowing For Them.**

As a countryman was sowing his ground two smart fellows were riding that way, and one of them called to him with an insolent air, "Well, honest fellow," said he, "'tis your business to sow, but we reap the fruits of your labor," to which the countryman replied, "'Tis very like you may, for I am sowing hemp."—Catholic News.

Many little lives have been saved by Foley's Honey and Tar, for coughs, colds, croup and whooping cough. It is the only safe remedy for infants and children as it contains no opiates or other narcotic drugs, and children like Foley's Honey and Tar. Careful mothers keep a bottle in the house. Refuse substitutes. J. W. McCollum & Co.

**Cab Wit.**

The French have an expression about "cab wit"—that is, a Frenchman returning from a party and alone in his cab thinks of lots of clever things he might have said. There is a great deal of cab wit outside of France.—Atchison Globe.

If you will take Foley's Orino Laxative until the bowels become regular you will not have to take purgatives constantly, as Foley's Orino Laxative positively cures chronic constipation and sluggish liver. Pleasant to take. J. W. McCollum & Co.

How long ago was it that your store—or enterprise—was merely a plan? With aggressive advertising, how long before your plan of what it is yet to become is realized?

**Using the Opportunity.**

"About the most resourceful young person I've encountered in the real estate line," said a Pittsburg man, "came from Ohio. He secured a place with a real estate firm. The second evening he was in town one of his co-workers introduced him to an evening gathering at the house of a well known merchant. The company, learning that the newcomer possessed a voice, invited him to sing. He responded with 'Home, Sweet Home.'

"Everybody was surprised at his selection, but as it was well done he was heartily applauded. Then he surprised them some more.

"Stepping forward to the center of the room, he said:

"'I'm glad you liked the song. There is nothing like "Home, Sweet Home," and let me say that our firm is selling them on terms to suit and within twelve miles of the city. If you don't care to live there the fact yet remains that it's the chance of your life for an investment.'"—Kansas City Independent.

**The Millers.**

"If you want to hear some guessing wide of the mark ask some one what he would think might be the third most common name in New York city," says the New York Sun. "The probability is the correct answer will never be made unless some one has happened to alight on some such bit of information. The fact is that, according to the best available authorities the name Miller ranks third, Smith holding first place and Brown second. It seems almost incredible, but as a matter of fact the name Miller stands well to the head of the list of names most frequently met with in the four largest cities in the country. It stands second in Philadelphia, third in New York city and fourth in Chicago, while the name Jones is way down in the list, holding the eleventh place in New York city and the thirteenth in Boston, with such names as Clark, Williams, White and other names never considered common preceding it."

**Scientific Spanking**

Consists in punishment only when a child is actually bad. Some mothers think that all crying is badness—it's not. When your baby cries, look for pins or some external cause; if you can't find them give the baby White's Cream Vermifuge, as the chances are it is suffering from worms which keep it hungry and cross all the time. Pleasant to take—sure in its action. Price 25 cents. Sold by W. M. Johnson.

**Housekeeping In Papua.**

European housekeeping in Papua is charmingly simple. Everything arrived in a tin, for the most part ready for us. Meat, milk, butter, vegetables—all stood in tins in neat rows in the storeroom. A diet of tinned stuffs grew rather monotonous at times, but we were able occasionally to vary it. Sometimes a man would arrive with a live turtle, which he would sell for two sticks of tobacco, costing threepence. The wretched turtle would be killed and cut up, but would still insist on quivering in a most realistic manner even when placed on the fire to cook. Then, too, if the season was a good one, the kitchen would be found lined with joints of wallabies, and it would be hard to know what to do with so much fresh meat.—Wide World Magazine.

**Vagaries of a Cold.**

You can never be quite sure where a cold is going to hit you. In the fall and winter it may settle in the bowels, producing severe pain. In the summer it may give you colic with diarrhoea or summer complaint. Do not be alarmed nor torment yourself with fears of appendicitis or inflammation of the bowels. At the first sign of the pain or cramp take Perry Davis' Painkiller in warm, sweetened water and relief will come at once. There is but one Painkiller, Perry Davis'. It is now put up in a large 35c size as well as the regular 50c size.

## TELEPHONE TALKS

**The Long Distance System**

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

## A REMEDY ADVANCED.

Much is being said and written about the "down and outness" of the Florida orange, says The Manatee Record. Many ideas have been advanced as to why Floridas carry so badly and why the markets refuse to accept them at anything like a remunerative price. It is to be hoped that all this talk will help conditions, but it's our opinion, roughly expressed, that Florida oranges will never permanently hold the high place they should in the markets until they are picked, packed and shipped as they should be. This idea that a Florida orange is a rubber ball and can be pounded and bruised about from the time it is picked until it is half-way wrapped and thrown into the box is an expensive myth, which a large number of growers and buyers have found out during the past season. Anyone who knows anything about Florida oranges knows that they are "brim full" of juice from the core to the rind, and that the rind itself is not of the thick, coarse variety, but thin and tender and easily bruised and broken, hence it's no wonder that oranges pounded about on every round of the ladder, dumped into water and ground through a harsh brush cleaner, redumped into the hopper of an orange sizer, packed so high in the box that it takes the weight of a two-hundred pounder to press the top down so it can be nailed, fail to carry well and reach the market in bad condition. If you will stop and think you will agree with us that the wonder is that a single Florida orange so packed ever reaches the market in a sound and perfect condition.

California's orange is much thicker skin and not near so full of juice, yet the growers of that State use great care in putting them up, and find it very profitable to put a few extra touches on the pack. There is no comparison between the Florida and California orange, yet by care in handling and marketing a profit is realized while we, with the better fruit, lose money. This shouldn't be, but it's so. Then what are you going to do about it? You cannot let things continue this way, for you'll be out of business in a few years. There's but one thing to do. Pick, clean, pack and ship your oranges right. Not a little better than you have been doing, but right, so that not a single cell in the tender rind will be bruised or broken when you place them in a refrigerator car for shipment to the northern market. You say this can't be done. We say it can, and until it is done Florida will never be the crowned queen of the orange market.

Should Congressman Clark's bill proposing the erection by the Government of postoffice buildings in all towns of from one to five thousand inhabitants become a law, the tremendous sum paid annually for rent would be saved. To erect these buildings it is proposed to issue $20,000,000 of 3 per cent bonds, running for thirty years.

"Made in Florida" sweet potatoes and cane syrup seem more plentiful in the Gainesville market this season than for several years, which serves as conclusive evidence that the farmers of this section made an abundance for home consumption and "some to spare" during 1908.

## CURRENT COMMENT.

The Mobile Register says: "The Cubans have begun to disagree rather early. A cabinet officer resigns before he is installed. 'Cuba for the Cubans' is working queerly. An African has been elected president of the Senate and an Italian president of the House."

The Norfolk Landmark says: "While Benjamin Franklin was picking March 4 as Inauguration Day because that date fell on Sunday a smaller number of times than any other date within 200 years, he overlooked the important fact that more bad weather would fall on that date than any other during the same period."

The Charleston News and Courier says: "When the United States was engaged in the work of fomenting revolution in Panama and appropriating the territory of a friendly country, why did not some of these very righteous statesmen who are now damning poor old Obaldia, organize a revolution at Washington against one of the most disgraceful of our American transactions? Where was Rainey when the first stealing was done?"

The Washington Post says: "The people of the East, before condemning California for agitating a question that involves the relations of the United States with Japan, should be sure that these Americans on the coast are wrong. California has seen Hawaii become a Japanese outpost, ready at a moment's notice to be seized by the Japanese already in the islands. Californians insist that the same process is in operation in their State. They are on the ground, and they ought to know. If the Legislature should enact anti-Japanese legislation this week, after the admonitions of the President, we may be sure that the act will not be that of mere agitators and sand-lotters."

The Charleston Post says: "As a Senator Mr. Bryan would find opportunity for the employment of his great gifts of oratory and for the preaching of his gospel of reform. He would serve the people well; he would be a national figure, though a State's representative. He would be measurably content with the dignities and the employment of the great office of United States Senator, and therefore less keen of ambition to the Presidency and not so much of a problem to the Democratic party. He would add immensely to the strength and power of the party in the nation by his participation in the debates of the Senate and his influence upon the course of legislation at the seat of the Government. The election of Mr. Bryan to the Senate would be a wholesome thing for the country, as well as a deserved solace to himself."

The Philadelphia Record says: "We take from our forests annually seven times as much wood per capita as the Germans take from their forests, and ten times as much as the French. We lose by fire every year buildings of the value of $450,000,000, which is approximately one-half the total cost of the new buildings annually erected. Four out of five of these fires are preventable, as is shown by the fact that in Europe, where they have more exacting building codes and standards of construction, the fire losses are enormously below those in this country. There appears to be a very close relation between the greater combustibility of our houses and our excessive use of timber for building."

## REAL CAUSE OF DIVORCE EVIL.

If the one million divorces in the country during the last twenty years had been granted for trivial causes, the outlook would be bad enough, but the situation becomes all the more serious when the separations take place for grave moral reasons. It is generally recognized that such causes as adultery, desertion, cruelty, imprisonment for crime, habitual drunkenness and neglect to provide are grave reasons for divorce; and while some of our States have omnibus clauses in their divorce law, these six principal grounds are the ones recognized by the majority of States.

Moreover, the statistics of divorces granted show that ninety-seven per cent of all divorces are granted on these six principal grounds. Only an insignificant fraction of the divorces in the United States are granted for trivial reasons, such as "incompatibility of temper." Again, over sixty per cent of the divorces in the United States are granted for the two most serious grounds of all—adultery and desertion. In other words, in two-thirds of the cases divorce was granted after husband and wife were already practically separated.

We must conclude, therefore, that divorce is prevalent not because of the laxity of our laws, but rather because of the decay of our family life. The real evil is not divorce, but the decay of the very virtues upon which the home rests. The problem in American family life is whether we are able to build up the virtues upon which a new and higher type of family may be founded, higher, that is, than the despotic, semi-patriarchal type of family of our fathers which is now passing away or is, rather, already extinct. It must be remembered, however, that the first essential element in the home life of a people is stability.—Charles A. Ellwood in The February Delineator.

**Prevalency of Kidney Disease.**

Most people do not realize the alarming increase and remarkable prevalency of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, *who content themselves with doctoring the effects*, while the *original disease* undermines the system.

**What To Do.**

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. # GAINESVILLE,

—THE—

## University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

## PUBLIC RIDICULE.

**The Time When It Served as Punishment For Lawbreakers.**

It is the problem of all ages to make the punishment fit the crime, but they seem to have come nearer its solution in Plantagenet times than they ever were after the introduction of flogging.

When burglary meant the total ruin of the man who kept his whole fortune in his house the burglar was hanged. But in the same period public ridicule served as a punishment for most crimes, and the man who sold bad meat was placed in the pillory and his bad meat burned to windward of him; the vintner who sold bad wine was forced to drink some of it and the rest was poured over his head; for more serious offenses the criminal had to walk along Cheapside bareheaded, dressed only in a shirt and carrying a wax taper, escorted by the mayor's servants.

The result was that law and order were maintained far better than when men became brutalized by the horrible floggings of Georgian times.

Punishments became worse with religious persecutions, and after the reformation the pillory, with its terrible accompaniment of slit ears, whippings, etc., became popular, to say nothing of torturing, burning at the stake, and so on. At St. Thomas' hospital one of the sisters, "for a grave offense, contrarie to ye lawe of God and according to the proffe of three wytnesses," was ordered to "be punished and have xii strypes well laid on."

But all this, bad as it was, was less demoralizing than the terrible criminal code of George II.'s reign, when there were forty-eight crimes punishable by death and forty punishable by whipping, transportation or pillory. Flogging for mere vagrancy began with Henry VIII., and as late as 1804 six women were publicly whipped at Gloucester for this unavoidable offense. And never did public morality sink so low.

In those good old days we flogged our sailormen "to encourage the others," and there were many trussed at the triangles who would now be simply admonished. A pleasant form of punishment was "flogging through the fleet." It was given to the ignorant sailorman who struck a superior officer. And when he had been carried from one ship to another and flogged in each he survived—if he was unfortunate—for six months. The lucky man died accidentally.—London Chronicle.

### Every Mother

Is or should be worried when the little ones have a cough or cold. It may lead to croup or pleurisy or pneumonia—then to something more serious. Ballard's Horehound Syrup will cure the trouble at once and prevent any complication. Sold by W. M. Jonson.

### His Thirst.

Husband—May, just send up some filtered water. Wife—Which was it last night, "Detained at the office" or "A friend at the club?" Husband—Why? Wife—Because I didn't know whether you wanted a tumbler or a gallful.—London Opinion.

### Off His Mind.

"Have you forgotten that X that you borrowed of me some time ago?"

"Oh, no. I still have it in my mind."

"Well, don't you think this would be a good time to relieve your mind of it?"

### Teaching the Royal Salute.

Crossing the deck of the Kaiser Wilhelm II. royal yacht with a large mug of beer in his hand, one of the sailors was startled by the sudden appearance of his royal master. He made a most clumsy attempt to salute with his free hand, while his anxiety to prevent the beer spilling amused his majesty. "Look here," said the latter, "you didn't do that right. Let me show you how it ought to be done." Telling the man to fancy that he was the emperor, who was to be saluted, the kaiser took the mug and retreated a few paces. Then, coming forward again, stopping opposite to the sailor, he held the mug to his lips, drained it, put it down on the deck and gave the salute with military precision. "That's the way to do it," he remarked to the astonished seaman. "Now go downstairs and tell them to fill the mug up again and give you one for yourself. Say it was I who drank it."

### What He Was Allowed to Do.

A Presbyterian delegate who was accustomed to being sent to denominational conventions to extend fraternal greetings was delegated to the general conference of the Methodist Episcopal church.

Rising to speak, he said it was always an interesting study to him to note the different receptions accorded him at the conventions of the various denominations.

"Whenever I attend a convention of the Episcopal church, for example," said he, "I find I can do anything I like except preach in the pulpit. When I go before the Baptist church I am accorded every privilege except that of taking communion. And," he said, with a smile, "when I appear among the Methodists I notice I am allowed every privilege except taking the collection."—Ladies' Home Journal.

**"That Which Is Worth Having Is Worth Advertising For"**

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocketbook—is obtained readily through advertising, and with difficulty, or not at all, through other means.

# CROWDS INCREASING AT BIBLE CONFERENCE

BISHOP MORRISON WILL AGAIN BE WITH THE WORKERS.

The Music is Proving An Interesting Feature Under Leadership of Profs. Hall & Mack.

The meetings of the Bible Conference still continue to grow in interest and large crowds are attending regularly now at each meeting. The study is proving unusually interesting along all subjects.

The singing by Profs. Hall and Mack is also proving a valuable feature of the meetings, and it is a real treat to go and enjoy the music as well as the interesting addresses.

Mr. Guille's theme at the Bible hour yesterday morning was "Sonship" and he handled it with the same thoroughness and depth of spirituality which have characterized his previous addresses. No one can listen to Mr. Guille without being impressed by his wonderful familiarity with the text of Holy Scripture, which familiarity is the self-evident source of his power to interpret it.

The exhibit of Sunday school material was continued during the morning session, and, as on the previous day, attracted great numbers of interested observers, all of whom felt that this exhibit was not the least part of the extremely helpful and practical work that Mr. Lauderbarn has done along Sunday school lines during his brief stay.

In the afternoon Dr. Phillips made one of his characteristic addresses on the "Modern Model Sunday School." He discussed the control, organization, equipment, instruction, worship and methods and outlined a system that, as he said, would enable any school to get off the merry-go-round and on the through express.

In the evening his subject was "Christ, the Model Teacher," and he again carried his audience with him in an address that wonderfully combined the deepest spirituality with the most practical and helpful suggestions for every sort of Sunday school worker.

This morning Mr. Guille will continue his Bible study at 10 o'clock. At half-past three Bishop Morrison will preach and the Gainesville public will be delighted to learn that he will also be heard on Sunday night and Monday afternoon.

Tonight Rev. Samuel M. Smith, D. D., pastor of the First Presbyterian church of Columbia, S. C., will preach the first of a series of three sermons. He is one of the most eloquent and spiritually minded preachers in the South and his sermons will be among the best of the many good things presented at this conference.

### Announcement.

We have just added to our Livery Department a complete Funeral Equipment and are now in a position to handle your funeral business.

To the first white death occurring in the city we will furnish our new funeral car FREE OF CHARGE, providing the balance of the turnouts are furnished by us.

Thanking our patrons for all business in the past, and soliciting a continued increase, we are yours,

CRAWFORD & DAVIS.

There is no case on record of a cough, cold or la grippe developing into pneumonia after Foley's Honey and Tar has been taken, as it cures the most obstinate deep-seated coughs and colds. Why take anything else? J. W. McCollum & Co.

The Gainesville National Bank has received nearly one thousand accounts from people in this section and is prepared to care for as many more. Our record for rapid growth is unequaled in Florida, and as rapid growth is the outcome of satisfactory service, we feel justified in soliciting new accounts. We want your own : : : : :
